Job Opportunity Description

Position Title: Engineering Intern

Working in a collaborative environment, the Engineering Intern will work as a member of a cross functional engineering team providing assistance in a variety of technical tasks supporting energy use analysis in commercial, industrial and residential buildings. This position will report to a full-time engineer at HDR Consulting LLC.

Responsibilities:

- Participate as a multidisciplinary engineering team member.
- Perform engineering data processing assignments and prepare data analytics reports meeting defined specifications.
- Use analytical tools to rapidly understand energy consumption patterns at customer sites.
- Collaborate on data interpretation and presentation.
- Identify and prepare recommendations for internal tools and process improvements.
- Participate in regular work status review meetings.

Successful Candidate’s Attributes:

- Working towards minimum of 2-year degree program in Engineering/Statistics, or related field.
- Familiarity with basic software including spreadsheets and word processors.
- Experience with multiple computer operating systems (Windows, Linux).
- Ability to manage numerical data.
- Entry-level understanding of statistical data analysis
- Ability to solve complex problems with consideration of the end user experience.
- Strong oral and written communication skills.
- Solid organization skills, including the ability to make sound prioritization decisions and the ability to manage multiple tasks and assignments.
- Professional, enthusiastic, hard-working and “can do” attitude.

Job Location: Las Vegas, NV.

Start Date: This position is available immediately.

End Date: 12/31/2016

Pay: $13-$15 per hour, depending on experience and qualifications.

Work Schedule: 20-25 hours a week. Flexible work schedule around the intern’s school schedule.
