More information is available at: <http://www.rtcnv.com/transit/fare-information/unlv-transit-pass/>.

Parking Tips for the Fall Semester

- There is a free parking lot on campus located in [Lot S](#) (corner of Harmon and Swenson, west of the tennis courts by the track). No permit is required to park in this lot. *However, you do need to arrive early in the day to ensure a space.*
- Avoid Maryland Parkway during the day. There is very limited parking between Cottage Grove (northern end of campus) to University Road (southern end of campus, Greenspun Hall next to In and Out Burger). Traffic gets very congested on Maryland Parkway with the speed limit set at 30 mph to keep traffic slow for the several pedestrian walkways in that stretch of road.
- Arrive early so that if do run into trouble finding a parking space and you don't use up your valuable time and energy getting frustrated.
- Read the RAVE (<http://oit.unlv.edu/rave/>) messages. If there is going to be an event on campus that will impact parking, messages usually go out the week prior to the parking impact.
- Open parking on Saturday.
- The two most likely areas that you will be able to find parking at any given time are the Thomas & Mack Center parking lot on the southwest side of campus and the Cottage Grove parking garage.
- New on campus, Zipcars give students the flexibility of using a vehicle without the hassle of ownership. You can reserve online or by using the app on your smartphone. Zipcars are available for as little as an hour at a time or up to 4 days. More information is available at: <http://www.zipcar.com/unlv>. You must be at least 18 years or older to use this service.
- With the exception of Lots I and G after 5:00pm, students displaying a valid student parking permit may park in faculty parking as well.
- Parking & Transportation Services provides assistance with battery jumps and tire inflation. Call 702-895-1300.

PHD Movie 2: "Piled Higher and Deeper: Still in Grad School" is the sequel to the film adaptation of the popular comic strip "Piled Higher and Deeper" by Jorge Cham (phdcomics.com - phdmovie.com). Like the comics and the first movie, the film takes a smart and humorous look at the world of Academia through the eyes of four grad students, and features real academics (including a Nobel Prize winner!) in many of the roles.
