"GET TO KNOW NUCLEAR"

PATCH WORKSHOP

Saturday, April 29th, 2017
at the
University of Nevada, Las Vegas
Sponsored by the American Nuclear Society,
UNLV Student Section

Here is your opportunity to receive the Get to Know Nuclear Patch. UNLV Nuclear Science graduate students will give presentations and operate stations that will allow you to receive your nuclear patch for attending the entire workshop from 7:30 am to 4:30 pm (including an hour for lunch).

Please arrive at the Thomas T. Beam Engineering Complex (TBE-B, Number 59 on the map) at the University of Nevada, Las Vegas, no later than 7:30 am. As part of this workshop we will visit the National Atomic Testing Museum in the afternoon, so you are in for a treat.

Please sign up by April 26th to ensure you have a place at this event. We recommend that older scouts attend this event (Grades 6-12). We will allow anyone who wants to participate to attend, but please use your judgment to determine the interest level of the scouts. Also, we limit the attendance to the first 40 scouts to sign up, but there is no limit for adults. The fee for this event is $10.00 per person (includes lunch and museum attendance).
