Join us for a panel discussion where innovators in business will share what inspires their work and what they have learned throughout their careers. The panel will be followed by a networking reception with employers and the panelists.

Panelists

Stefanie Faassbender
Virtual Design & Construction Manager, Burke Construction

Stefanie, originally from New York City, is a graduate of the City University of New York and the University of Wisconsin-Madison. She holds both Bachelor’s and Master’s degrees in Civil Engineering along with a certificate in Business Entrepreneurship. As Burke’s Virtual Design and Construction (VD&C) Manager, Stefanie is responsible for coordinating projects virtually, running clash detections, creating renderings, overseeing the company drone as well as investigating and introducing new technologies.

In addition to previously consulting for Local 601 Steamfitters Union (in Wisconsin), Stefanie has taught a Building Information Modeling class, published a research article and completed a thesis. When she isn’t explaining what VDC stands for, you can find her exploring new hiking trails around Vegas!

Blaine Graboyes
Co-Founder & CEO, GameCo

Blaine is Co-Founder and CEO of GameCo, inventor of “the video game casino” and creator of the Video Game Gambling Machine (VGM™). Blaine also co-founded The Gamer Agency, the premiere independent exports production company, acquired by Enginio Shop. Graboyes is an award-winning Executive Producer and Game Designer with over twenty years’ experience developing digital entertainment. He has produced over 4,000 projects for world-renowned clients such as Blizzard Entertainment, Ubisoft, DreamWorks, Mattel, Sony, Disney, Nickelodeon, DIRECTV, Warner Bros., and The Guggenheim and Whitney Museums. His work has been recognized with awards including the 16th Annual GGB Gaming & Technology Awards Silver Medal, an RMA Platinum album, and IGN Editor’s Choice Award.

Blaine is an active member of the Producers Guild Of America (PGA).

Vikas Khorana
CTO & CEO, Ntooitive

Vikas oversees all of Ntooitive’s technology implementations, including onboarding, integration, and development. Vikas leads initiatives to provide proprietary solutions that incorporate AI and ML to deliver business intelligence to Ntooitive’s partners. Prior to Ntooitive, Mr. Khorana held a variety of senior engineering positions with Stephens Media in Las Vegas. Nevada. He has also worked at Cyberworld Inc. and Satyam Infosys. Mr. Khorana was named Editor and Publisher’s TOP 25 UNDER 35.

Vikas was also recently accepted into the Forbes Technology Council to share his knowledge and industry experience and has been featured in publications such as Martech, MediaPost, Inc.com, TechTarget, and Success Magazine.

Chris Race
VP of Product, RevUnit

Chris is the Vice President of Product at RevUnit, a digital strategy and product studio helping enterprise workforces leverage technology to work better. He is an experienced leader with a track record of building teams that deliver valuable products. He is adept at operating in enterprise (e.g. C-suite, DreamWorks, Mattel, Sony, Disney, Nickelodeon, DIRECTV, Warner Bros., and The Guggenheim and Whitney Museums). His work has been recognized with awards including the 16th Annual GGB Gaming & Technology Awards Silver Medal, an RMA Platinum album, and IGN Editor’s Choice Award.

Linda Montgomery
President, The Learning Center Las Vegas

Ms. Montgomery founded her business in 1985 with the early introduction of PCs. Over the past 32 years, her company has evolved and morphed to a leader in global cybersecurity workforce development. Today Cyber World Institute delivers education globally through business and academic partnerships. Authorized by four of the five global credentialing bodies (ISC2, EC-Council, ISACA, and CompTIA), CWI is changing the workforce development paradigm by delivering experiential based learning with cyber range labs. Ms. Montgomery serves as Co-Chair of the NICE – National Initiative for Cybersecurity Education, a DHS/NIST initiative, leading the Training and Certification Working Group.
