Dr. Gillian Pinchevsky Presents:

CAMPUS LAW ENFORCEMENT RESOURCES FOR RAPE PREVENTION AND RESPONSES TO STALKING

Although the past few decades have taught us much about college and university responses to various forms of interpersonal violence affecting campus communities, this has largely not extended to campus law enforcement agencies. The lack of attention to this area is unfortunate given the role that these officers play on the campuses that they serve. This presentation presents data from the Survey of Campus Law Enforcement Agencies data to examine the change in individual campus law enforcement resources (i.e., personnel) dedicated to rape prevention and stalking over time (2004-2011) across 4-year institutions of higher education.
